Why Listen to Trading Forecasts?

What's in it for you? Based on innovative and insightful research with market cycles, seasonals and patterns, NetPress has prepared the "**Trader's Guide Thru 2008**" to help traders like you **take advantage of the BIG moves that are likely to begin soon.**

As the grain and soybean complex markets continue to churn, there are major changes brewing in the technical picture. When will the markets bottom? Are they bottoming now? How high can they go? Which markets will be the best vehicles? What "surprises" await us? Will metals crash or soar...? These are just a few of the important questions answered this long-term report AND in the Stock and Commodity Weekly Newsletter. At this low, low subscription price you'll get great value for your money as well as the FREE Long-Term Report and a FREE trading system.

You also get the hotline update number **Free of Charge.**

- Soybeans:** Is a rally to \$10 imminent? If so, when?
- Precious Metals:** Silver prices exploded as predicted. Will gold make new highs? Or fail?
- Platinum & Palladium:** Is palladium the best buy in metals? Will platinum continue its record-breaking rally? Is palladium the next 300% mover?
- Interest Rate Futures:** My long-term forecast was right - Where now? Interest rates at 14% by 2008?
- Real Estate & Farmland:** Is this the top? Will prices move lower for the next two years? Or more?
- Crude Oil:** What's next, \$100+ or \$40?
- Sugar:** The major bull market we projected has started. Which way now? Can prices hit 30¢?
- Cocoa:** Is a new bull market inevitable? \$21 or higher by 2008? Ground floor opportunity?
- Stock Market:** Will stocks plunge? Will a 4-year low be made in Oct 2006?
- Grains:** Is the worst over? Which of the grains is your best bet for a giant rally? Can meal soar?
- Cattle, Bellies & Hogs:** The 10-year and 3-4 year cycles were right. Can cattle and hogs double? By 2008?

The **Trader's Guide Thru 2008** also addresses the following vital questions . . . **The Long-Term Trend in Interest Rates . . . Inflation or Deflation? The Real Estate Trend . . . The Cycles Forecast for Stocks . . . The Petroleum Outlook** and much, much more. In my humble opinion, **The Trader's Guide thru 2008** alone is worth much more than the cost of the entire 60% discount subscription!
